Pricing valid March 1 - April 30, 2021

3M™ Performance Plus™ Wire Connectors are designed with a uniquely flexible spring that has generous room for expansion and a strong bite for a secure connection. Because of their increased wire range, just three Performance Plus wire connectors handle the work of eight standard connectors. And the flexible skirt helps prevent copper exposure for enhanced safety.

Arlington®

Arlington's non-conductive box extenders extend set back metal or non-metallic electrical boxes up to 1-1/2 inches, the easy way! They work with any single gang device and most steel and non-metallic outlet boxes, providing a level, fully supported wiring device that's flush with the wall surface. In steel boxes they prevent arcing and shorting by creating a barrier between the box and device screws.

\$35.97 ea. 88420

BRK SC9120B 120 VAC Ionization and Carbon Monoxide Alarm [88420]
Easy Installation/Maintenance - Preferred features include a large opening in the mounting bracket for easy access to wiring. Keyhole slots in the mounting bracket eliminate the need to remove the electrical box screws for installation. A battery pull tab keeps the battery fresh until the home is occupied. Battery installation and removal can occur while the unit is mounted to the ceiling or wall via the side load battery compartment. Two locking features are provided to prevent battery theft and/or theft of the unit. Connection to AC power is made with a "Quick-Connect" wiring harness. Installation is quick, easy and cost effective.

\$20.07 ea. 81893

BRK RM4 15 Amp 120 VAC 30 VDC 1/3 Hp Relay [81893]
Designed to activate an auxiliary device when an alarm is initiated. The RM4 Relay is intended for use with BRK and First Alert Smoke, Heat and Carbon Monoxide Alarms. The relay contacts will activate whenever any interconnected alarm sounds. The relay contacts will automatically deactivate a few seconds after the alarm stops sounding. The RM4 may be wired next to an AC alarm or from a remote location. This relay must be installed in a junction box.

SMOKE ALARM

CAT. **9120B Series**

DUAL IONIZATION
Dual Ionization sensing chamber. Generally more effective at detecting small particles produced by flaming fires. Sources may include paper or kitchen grease.

LATCHING ALARM INDICATOR
Remembers which unit initiated an alarm.

SILENCE FEATURE
Silences nuisance alarms.

TWO LOCKING FEATURES
Pins are provided to lock battery drawer and/or alarm to base. Perfect for apartment, dormitory or hotel applications.

Cablofil Wiremesh Cable Tray concept based upon performance, safety and economy; three qualities which make Cablofil Wiremesh Cable Tray system preferred by installers. Cablofil adapts to the most complex configurations, and its structure gives maximum strength for minimum weight. The ease of creating fittings, carried out on site, as well as the wide range of unique and universal accessories gives complete freedom in routing combined with exceptionally fast installation.

- Tray can be detached on 1 side to add cables.
- Use pliers to lock tabs and secure tray to threaded rod.
- Threaded rods, nuts, and washers sold separately.
- Allows threaded rod to extend past AS clip for multi-tier levels.

APPLICATIONS:

OE series are installed in conduit systems within hazardous areas to:

- Protect conductors in threaded rigid conduit
- Act as pulling and splice fittings
- Interconnect lengths of conduit
- Change direction of conduit
- Provide access for maintenance and future system changes

FEATURES:

OE conduit outlet bodies have:

- Taper threaded hubs for ground continuity
- Smooth integral hub bushings to protect conductor insulation when pulling
- Five different hub arrangements
- Accurately machined body with blind tapped screw holes
- Most compact design of all hazardous area outlet bodies

\$4,532.93 ea.

Generac 7042-2 (WiFi) 22/19.5 KW Air Cool Standby Generator with WiFi Aluminium Enclosure (Unit Only) [1315002]

Mobile Link™ Remote Monitoring allows you to monitor the status of your generator from anywhere in the world using a smartphone, tablet, or PC. Easily access information, such as the current operating status and maintenance alerts. Connect your account to your authorized service dealer for fast, friendly and proactive service. With Mobile Link, you are taken care of before the next power outage.

1232140

\$720.90 ea.

Generac RXSW200A3 Smart SW Service Rated 200A 120/240 1P NEMA 3R Enclosure [1232140]

Generac Automatic Transfer Switches are designed for use with single phase generators that utilize an Evolution or Nexus Controller. The 200 Amp open transition switch is available in single phase with service equipment rated configurations and works in tandem with the generator to monitor the utility power. When utility power is interrupted, the transfer switch automatically transfers power from the utility to the generator. When utility power returns, the transfer switch will return the electrical load from the generator back to utility. Through the use of digital power technology (DPM), these switches have the capability to manage up to 4 individual HVAC (24 VAC controlled) loads with no additional hardware. As the #1 selling home standby generator brand, Generac offers the best in class power products for all your home, business and personal needs.

491646

\$91.58 ea.

Generac 5819 8.7 x 6.8 x 7.6 Inch 20 kW 26R Battery [491646]

Every standby generator requires a battery to start the system. In efforts to achieve the easiest generator installation, Generac offers the recommended 26R, wet cell battery applicable for all air-cooled standby generators.

Lithonia Lighting 65BEMW-LED-30K-90CRI-M6-GEN3 Contractor Select 65BEMW 5" and 6" E-Series LED Downlight [1290950]

Using adjustable torsion springs, the economical, E Series LED downlight fits most manufacturers 5" and 6" recessed can-style housings. It can be dimmed down to 10% and maintains 70% light output after 54,000 hours of use. Ideal for both retrofitting and new construction in a variety of residential and light commercial settings such as multifamily residences, retail shops and offices.

The Wafer™ LED is an ultra-thin recessed downlight ideal for shallow ceiling plenum applications. Quality, housing-free recessed downlighting is achieved with its narrow remote driver box. The Wafer LED is quick and simple to install from below the ceiling.

Discover the power of smart lighting

See your Capital Electric Sales Representative for more information.

Smart Switch Starter Kit

Homeowner benefits

- Always come back to a well-lit home
- Easily check which lights are on or off, using the Lutron App
- Add even more convenience by integrating with Siri, Alexa, or the Google Assistant
- Have outdoor lights scheduled to automatically turn on at dusk and off at sunrise

Take advantage of the geofencing feature to turn lights when you come home

Ideal for outdoor lighting

Hassle-free scheduling

- Schedule outdoor light changes by sunrise/sunset or time of day
- No need to come back and adjust the schedule for daylight saving time

Features to sell around

- Once you add the Smart Bridge, it's easy to add additional devices to the system
- Can integrate with the homeowner's favorite voice assistant
- The Smart Bridge doesn't depend on the home's Wi-Fi (if the Wi-Fi goes down, Caséta still works)

Potential add-ons

- Additional switches or dimmers throughout the home
- Pico remotes for additional points of control

You could also set up Smart Away, geofencing, and other app features, for added value for the homeowner

Dimmer Kit with Smart Bridge

Homeowner benefits

- Create the right light for any occasion
- Easily check which lights are on or off, using the Lutron App
- Add even more convenience by integrating with Siri, Alexa, or the Google Assistant

Ideal for the kitchen and living, family, and dining rooms

Add more smarts – without stress

- Easily add on to projects when you're adding retrofit light kits
- Simply plug the Smart Bridge into the router, download the Lutron App, and follow the instructions
- No neutral required – ideal for older homes

Features to sell around

- Once you add the Smart Bridge, it's easy to add additional devices to the system
- Can integrate with the homeowner's favorite voice assistant
- The Smart Bridge doesn't depend on the home's Wi-Fi (if the Wi-Fi goes down, Caséta still works)
- Dim or brighten lights to create the perfect atmosphere for any activity

Potential add-ons

- Additional switches or dimmers throughout the home
- Pico remotes for additional points of control

NEW PRODUCTS!

\$249.00 ea.  1605489

NEW!! Milwaukee Tool 3510-21 USB Rechargeable Green 3-Point Laser [1605489]

Milwaukee's USB Rechargeable Green 3 Point Laser is powered by REDLITHIUM™ USB, delivering you all-day runtime and uncompromised visibility. The high-intensity laser beams allow the green points to be visible up to 150' for fast, accurate point transfer. The Integrated Adjustable Clearance Bracket enables this 3 point laser level to easily fit over steel stud track or create clearance for marking the floor. This green laser level features amplified rare earth magnets, providing a strong hold onto metal surfaces. The integrated screw and nail hang holes allow easy and efficient setup in any environment. You can charge REDLITHIUM™ USB Batteries inside the laser via a Micro USB or swap it out with additional REDLITHIUM™ USB Batteries for virtually no downtime. The MILWAUKEE® USB Rechargeable Green 3 Point Laser is covered by a two-year warranty.

\$14.99 ea.  1605497

NEW!! Milwaukee Tool 48-35-1111 Responsive Laser Alignment Target [1605497]

The MILWAUKEE Responsive Laser Alignment Target provides the fastest, most visible alignment feedback when setting lasers with a point on the floor or checking an offset. The X design provides responsive centering feedback that guides the line to the center, making the alignment process faster, while the high visibility illumination makes it easy to see. This laser X target also features a wide magnetic base that is perfect for floor use or magnetically attaching to ferrous surfaces.

Features:

- High Visibility Illumination
- Responsive Centering Alignment
- Wide Magnetic Base
- 1/4 in. and 1 cm Increments
- Hang Hole
- High Contrast Reflective Surface
- Rare Earth Magnets
- For use with Green Lasers
- Limited Lifetime Warranty

ULTRA LED HID replacement lamps are ideal for indoor high/low bay lighting and outdoor decorative post top fixtures in walkway lighting applications.

Benefits and Features

- Lasts up to 5 times longer than HID lamps
- No warm-up time, instant on with full light output and stable color
- Consumes up to 76% less energy than equivalent HID lamps while delivering same light output
- Rated for open and enclosed fixtures
- Replacement for 70W-400W HID medium/mogul base applications
- Up to 145 LPW
- 3000K, 4000K and 5000K color temperatures
- CRI 80+
- 360° beam angle (or omnidirectional) with Type V distribution

Quazite®

Polymer concrete is made from select-grade aggregates in combination with a polymer resin system. When combined through a process of mixing, molding, and curing, an extremely powerful cross-linked bond is formed. Precast polymer concrete is reinforced with fiberglass to give it additional strength and rigidity
